

The Brain Gym/Workout

Building Bright Ideas Through Networking

If you want to;

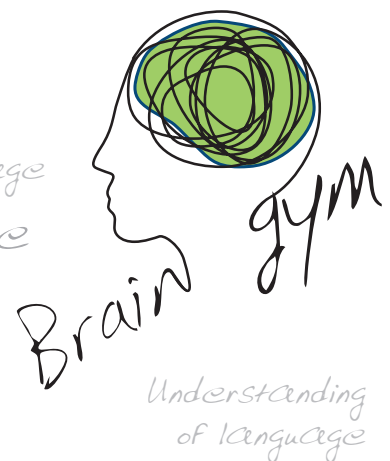

- Keep up-to-date
- Get projects agreed
- Overcome obstacles when things start to go wrong
- Sell in a difficult market
- Have the stimulation of a range of different perspectives
- Use other peoples strengths to your advantage

then undertaking Building Bright Ideas is essential.

The knowledge economy of 1990s is fast being replaced by the network economy of 2000s and if you haven't got a good network of associates, you are going to be left behind. Yet building networks can, for some of us, feel uncomfortable.

This workout has been designed to teach some really simple techniques for identifying and making an impact with the people you want to impress and how to build a network that works for them as well as you. You will Build Bright Ideas together!
